Course & Workshop

Minimally Invasive Pain Treatment

Basics and Application of Cryoanalgesia and RF-Thermal Lesion

10th and 11th October 2016

Venue: ARKANA Forum, Emmendingen

In cooperation with the Interdisciplinary Pain Center of the Medical Center – University of Freiburg (K. Kieselbach MD, Medical Director and T. Wolter MD PhD)

sponsored by:

inomed
we share competence

Introduction

Dear Colleagues and Friends,

we are pleased to announce the programme of the International course and workshop „Minimally invasive pain treatment“ taking place 10th and 11th October 2016 in Emmendingen.

This course once more emphasizes the significance of cryo analgesia and RF-thermo lesion in treating degenerative spinal dorsal pain as well as other procedures like large joints denervation or sympathetic nerve treatment.

By means of standardized methods in the application of temperature controlled techniques, both RF-thermo lesion and reversible cryo analgesia, pain treatment is supplemented by two useful and effective methods.

An experienced team of application specialists will offer an overview on the methods and during integrated hands-on sessions you will have the opportunity to get familiar with them.

The course is addressed to neurosurgeons, orthopaedists and all physicians in charge of pain treatment who intend to get familiar with these methods to apply them successfully in their daily routine. The theoretical knowledge gained can be expanded in practical hands-on sessions offered in the course and during CT guided live demonstration. Take the chance to share and discuss your experience with participants and speakers.

And last but not least enjoy the pleasant Black Forest surrounding in Germany’s warmest region around Freiburg.

We cordially invite you to join us and are very much looking forward to welcoming you in this course.

Sincerely

Kristin Kieselbach MD
Pain Specialist, Neurosurgeon
Medical Director
Interdisciplinary Pain Center
Medical Center – University of Freiburg, Germany

Tilmann Wolter MD PhD
Pain Specialist, Neurosurgeon
Consultant

Programme (Subject to alterations)

Monday, 10th October 2016

08:15	*Registration*
08:30	Welcome
08:45	Introduction: Pain Therapy
09:30	Basics Cryo and RF-thermal lesion
10:00	*Coffee break*
10:15	Pain treatment of large joints (hip, knee, shoulder)
10:35	Treatment of spinal disc pain with RF thermal lesion
10:55	Scar pain
11:10	Radiofrequency thermal lesion in facet joint denervation
11:40	Spoilt for choice? Cryo- or RF-thermal lesion
12:10	Discussion
12:30	*Lunch*
13:15	Pain Therapy: heel spur, tennis elbow, sholder pain
14:00	Ganglion impar
14:10	RF-thermal lesion at sympathetic nerve
14:20	Discussion
14:40	*Coffee break*
14:55	Workshop 1: Hands-on in groups C3
15:40	Group change
15:50	Workshop 1: Hands-on in groups RF2
16:35	Free discussion
17:20	Evaluation and certificates
19:00	*Social evening with dinner*

Tuesday, 11th October 2016

Work shadowing in the OR
in the Interdisciplinary Pain Center
of the Medical Center – University of Freiburg

(The exact time will be announced in due time.)

Speakers

Course director:

Kristin Kieselbach MD
Pain Specialist, Neurosurgeon
Medical Director of Interdisciplinary Pain Center
Medical Center – University of Freiburg,
Germany

Tilman Wolter MD PhD
Pain Specialist, Neurosurgeon
Consultant Interdisciplinary Pain Center
Medical Center – University of Freiburg,
Germany

Invited speaker:

Holger Koepp MD
Specialist for orthopedics, rheumatology, pain therapy
Consultant Orthopedic Unit
Special Clinic for Geriatrics and Orthopedy
Otto-Fricke-Hospital Bad Schwalbach, Germany

Olav Rohof MD PhD, FIPP
Anesthesiologist
Pain Clinic - Obis Medical Center
Sittard Geleen
Netherlands
