

## Walter Hitzig Fellows

- [Dr. Christoph Neumann-Haefelin](#) Type II fellowship Analysis of the protective effect of HLA-B27 in hepatitis C virus infection
- [Dr. Yakup Tanriver](#) Type II fellowship The role of NKG2D on T cells during allograft recognition and rejection
- [Dr. Sybille Kenzel](#)  
Type I fellowship Explorative phenotyping of PMN from patients with clinical immunodeficiency
- [Dr. Kerstin Felgentreff](#)  
Type I fellowship Molecular and immunological analysis of the phenotypic overlap between Loeys-Dietz syndrome (TGF-beta R mutations) and autosomal-dominant Hyper-IgE Syndrome (STAT-3 deficiency)
- [Dr. Jan Rohr](#)  
Type I fellowship Impact of co-stimulatory signals on recruitment and kinetics of antigen-specific cytotoxic T-lymphocytes in vivo
- [Dr. Laura Simons](#) Type II fellowship Artificial thymopoietic microenvironments
- [Dr. Holger Meinicke](#) Type II fellowship Epithelial cell molecules in the mucosal immune response
- [Dr. Susan Farmand](#)  
Type I fellowship Neutrophil extracellular trap (NET) formation
