

Guest Seminars 2011 and 2012

Guest seminars take place in the IMMH Ground floor lecture theatre unless stated otherwise. IMMH = Institut für Medizinische Mikrobiologie und Hygiene, Hermann-Herder-Str. 11, 79104 Freiburg.

Other guest seminars of interest to members of CCI and organised by the CRC 620 are listed on the [CRC web site](#)

Date	Time	Guest	Title	Host
Monday, 31.01.11	17:15	Matthaios Speletas, Department of Immunology and Histocompatibility, University of Thessaly, Medical School Larissa, GREECE	"TNFRSF13B/TACI and TNFRSF13C/BAFFR alterations in antibody deficiencies and lymphoproliferative disorders"	Hermann Eibel
Monday, 14.02.11	17:15	Pascal Schneider, Department of Biochemistry, University of Lausanne, Switzerland	"TNF family ligands BAFF, APRIL and EDA"	Hermann Eibel
Friday, 18.02.11	14:00	Dr. Elisabetta Traggiai, Gaslini Pediatric Institute of Genoa, Italy	"Purines in the Regulation of Human B cell Physiology" Erleben, Gynaecology	Klaus Warnatz
Monday, 30.05.11	17:15	Andrea Cerutti, IMIM–Hospital del Mar, Barcelona, Spain and Mount Sinai School of Medicine, New York.	""Regulation of immunoglobulin class switching by innate immune signals"" IMMH	Hermann Eibel
Monday, 30.05.11	17:15	Andrea Cerutti, IMIM–Hospital del Mar, Barcelona, Spain and Mount Sinai School of Medicine, New York.	""Regulation of immunoglobulin class switching by innate immune signals"" IMMH	Hermann Eibel
Friday, 22.07.11	14:30	Dr. Nina Chevalier, Garvan Institute of Medical Research, Sydney	"Differentiation, function and fate of T follicular helper cells in normal and dysregulated immune responses." E107 Tumorbiology Clinic	Klaus Warnatz
Friday, 16.09.11	14:30	Dr. med Anselm Enders, The Australian National University, Canberra	"Using ENU mutagenesis to identify new genes regulating the immune system" E107 Tumorbiology Clinic	Stephan Ehl
Thursday, 27.10.11	13:00	PD Dr. Peter Späth, University Bern	Complement Deficiencies Library Gynaecology	CCI Fellows
Monday, 5.12.11	17:15	Prof. Dr. Martina Sester, University Hospital, Saarland	Immunomonitoring of CMV and M. tuberculosis infections after transplantation IMMH	Stephan Ehl

Monday, 16.04.12	17:15	Hans-Martin Jäck, University of Erlangen-Nürnberg	How RNA controls B cells IMMH	Hermann Eibel
Monday, 9.07.12	17:15	Bernhard Fleckenstein University Hospital Erlangen	The Fascination of T cell transformation IMMH	Reinhard Voll
