

## Research group “Molecular Epidemiology“ (Alexandra Nieters, PhD, MPH)

Alexandra Nieters Group Leader

1985-91 Study of Biology in Göttingen and Berlin (Diploma)

1991-94 Dr. rer. nat. at Max Planck Institute for Molecular Genetics, Berlin

1995-97 Study of Public Health, Epidemiology, University of California, Los Angeles, USA (Master of Public Health)

1998-2004 PostDoc and Senior Scientist, Division of Clinical Epidemiology, Deutsches Krebsforschungszentrum, Heidelberg

2005-2009 Junior Group Leader Molecular Tumor Epidemiology, Deutsches Krebsforschungszentrum Heidelberg

2009 Habilitation in Epidemiology, Ruprecht-Karls-University, Heidelberg

since 2009 Group Leader Molecular Epidemiology, Centre of Chronic Immunodeficiency, Freiburg

The research group "Molecular Epidemiology" integrates genetic and epigenetic biomarkers in epidemiological studies of immunodeficiency phenotypes and explores their interplay with environmental and lifestyle factors to define disease risk and prognosis. The group includes epidemiologists and laboratory scientists and welcomes students with an interest in interdisciplinary projects at the interphase between epidemiology, molecular biology and epigenetics.
