Information on EU-funding is available in several languages at CORDIS (Community Research and Development Information Service) <http://cordis.europa.eu>

## Mentoring

At the ENOTHE conference 2007, a group of mentors and PhD students finalised [recommendations](#) about how ECOTROS can support PhD students. They suggested a list of mentors, a web-based communication platform and a literature list. If you like to help as mentor or know further literature, please send an e-mail to [sebastian.voigt@uniklinik-freiburg.de](mailto:sebastian.voigt@uniklinik-freiburg.de)

## Web-based communication platform

Please contact Philipp Eschenbeck, in order to join the ECOTROS\_PhD group (=> [p.eschenbeck\[at\]googlemail.com](mailto:p.eschenbeck[at]googlemail.com)).

## Literature

- Phillips EM, Pugh DS (2000) How to get a PhD. A handbook for students and their supervisors. 3rd Ed. Buckingham. Open University Press. It is a basic book useful for people beginning the process.

## Studying for a PhD in Europe

In this [PhD-information](#), possibilities and difficulties in studying for a PhD in European countries are described and means for improvement are suggested to ENOTHE, the universities with PhD programmes and the interested students.

Occupational therapy research is developing in Europe. There are an increasing number of occupational therapists with Bachelor and Master Degrees. The number of occupational therapists with PhD degrees is also increasing but still there are not possibilities for this level of education in all European countries. The ECOTROS project group is aiming to facilitate OT research at PhD level and so please feel free to contact us if you want information about applying for a PhD.
