## ECOTROS Survey 2008

The ECOTROS project group replicated the survey amongst ECOTROS members on the network's benefit. The 2008 questionnaire was answered by 93 persons (approx. 30%). The results are summarized as follows:

- Information and contact aims have been reached
- Information provided on the website is beneficial
- Communication via the mailing lists was beneficial
- The workshops were beneficial for 20% of the persons who answered the questionnaire (60% didn't answer this question, so did not attend a workshop).
- Statements given: 14 were satisfied with ECOTROS as it is at the moment, 11 gave recommendations and 11 were statements about improvement of research collaboration and about the institutional organization of ECOTROS
