

Diagnostics in the Department of Virology

We serve

as diagnostics unit for:

- the Freiburg University Medical Centre
- external hospitals and private physicians

as reference laboratory for:

- external quality control centres
- medical device manufacturers

We offer:

- validated virological diagnostics
- a comprehensive panel of tests for relevant human viral pathogens
- flexibility in handling emergency test orders
- competent consulting covering diagnostic as well as therapeutic issues
- state-of-the-art technology constantly adapted to recent scientific results
- optimum logistics for clinical trials and diagnostic evaluations

Please see our [German pages](#) for more detailed information.
