Software Transfer Agreement for the Experimental software package "DTI&FiberTools" to your institute

developed by the Department of Radiology, Medical Physics, University Medical Center Freiburg

This software developed by the University Hospital Freiburg (UHF) is experimental in nature and has no product status. Further, you should keep in mind that this software has neither FDA nor any other national or international normed medical/health regulations approval. Therefore its use may be limited by applicable statutes or regulations. It is in your sole responsibility to obey these statutes, rules and regulations and to use this software only for allowed purposes.

However, we will accept the installation of the above referenced software provided we receive a signed copy of this letter, acknowledging your agreement with the included paragraphs.

We did not perform a full product test under all operating conditions, nor have we approved the use of this software in combination with several MRI Systems. UHF makes no representation or warranties of any kind concerning the Software or any related material or information (SOFTWARE), including without limitation with regard to the accuracy, quality completeness or non-infringement, and the absence of any legal or actual defects whether or not discoverable. Specifically the SOFTWARE is provided without warranty of merchantability or fitness for a particular purpose.

UHF shall not be liable for any use, handling or storage of the SOFTWARE by you.

Therefore, your institution and the individual physicians/physicist at your site shall hold harmless, defend and indemnify UHF and its staff against any loss, illness, damage, claim, liability, costs and expenses of whatever kind or nature arising out or in connection with your use, handling or storage of the SOFTWARE, except to the extent that such loss or damages are attributable to grossly negligent or wilfully wrong act or omission on the part of the UHF.

Additionally we request you to accept the following guidelines:

1) You will not give any copies of this experimental software package to third parties.

2) You agree to provide accreditation to our institution and its designated professional staff who participated in the creation of the software, in your publications or presentations in accordance with standard academic practice.
