

Adverse events (Study period): A total of 232 adverse events were reported of which 83 (36 %) were related to the study medication. Two physicians judged independently the likely attributability to Asparagus P^R.

	Possible	Likely	Certain	Drop-out
Kidney pain and/or peripheral oedema	8	6	4	7
Allergic skin reaction		1	1	1
Gastrointestinal complaints	52 ¹⁻⁷			1
Other	5 ^{8,9}		2 ¹⁰	1 ¹⁰
Pollacuria	3	1		

¹: 18 x constipation

²: 6 x meteorism

³: 19 x abdominal pain

⁴: 4 x nausea

⁵: gall bladder spasms

⁶: 2 x irritable bowel syndrome

⁷: 2 x mouth dryness

⁸: leucocytosis

⁹: 4 x dizziness

¹⁰: gout

Adverse events (Follow-up). A total of 37 adverse events were reported of which 6 were related to the study medication.

	Possible	Likely	Certain	Drop-out
Kidney pain and/or peripheral oedema	1 ¹			
Allergic skin reaction				
Gastrointestinal complaints	2 ²	1 ³		
Other	2 ^{4,5}			1 ⁵
Pollacuria				

¹: peripheral oedema

²: 1 x meteorism, 1 x heartburn

³: Constipation

⁴: menorrhagia

⁵: headache
