MULTIPLE MYELOMA (MM) 2022

13TH MM MEETING:
THE FUTURE OF MM IS BRIGHT

**13th
Freiburg Myeloma Workshop 2022**
Wednesday, October 19th 2022

13TH FREIBURG MYELOMA SCIENTIFIC MEETING
3:00 – 9:00 pm

Location: Virtual + Live Meeting,
Kleiner + Großer Hörsaal Medizinische Klinik

WELCOME NOTE

Dear colleagues,

following the annual tradition of assembling outstanding experts at Freiburg University to let them share their insights on advances in multiple myeloma (MM), we are very happy to welcome you all to the **13th MM Meeting 2022**. Over the last years, remarkable advances in the field have steadily improved the outcome of patients suffering from plasma cell dyscrasias. Myeloma physicians, both in the clinic and outpatient office, face challenges as the options available add up to a whole variety of valuable treatment strategies (including novel agents, immunotherapies and stem cell transplantations).

Our **live scientific flash talk session (3:00 to 5:00 pm)** will give you the opportunity to take a closer look at what the Freiburg approach in the Myeloma field is. You will have the opportunity to discuss exciting insights with us and extend your and our knowledge on preclinical and clinical projects.

The future of MM is bright is the title of our 2022 workshop meeting, which will be a live meeting.

We have invited worldwide eminent authorities from the US and Germany, who will - with UKF experts plus commentary guests - share their data with us in straightforward discussion rounds.

Therewith, we will cover new treatment modalities in MM, will solve, where the future in MM evolves to, what are current, worldwide trials from the US and Germany and pending solutions needed for this disease.

We will also address the constantly better MM care for our patients in 2022 and beyond.

Cordially looking forward to seeing you during this meeting in October 2022.

Prof. Dr. Monika Engelhardt
Sektionsleitung Klinische Forschung
+ MM-Programm | UKF

Prof. Dr. Justus Duyster
Ärztl. Direktor Med 1 und
Klin. Direktor CCCF

Prof. Dr. Ralph Wäsch
Sektionsleitung Medizinische Zell-
therapie & Zellforschung SMZZ,
MM Programm | UKF

FLASH TALK 3-5 PM

Kleiner Hörsaal Medizinische Klinik - This session is not available online | In display during the meeting with key discussion points (5 slides for each project) and discussed in 1-2' by 1st author

Chairs: J.Jung, H.Schäfer, J.Neubauer, G.Herget, T.Hartmann
Preclinical projects

1. **Christine Greil** | MM microenvironment and CD38 modulation of expression and implications for clinical use
2. **Sina Wenger, Milena Pantic** | Cytogenetics in MM
3. **Cornelius Miething, Johannes Jung, Dietmar Pfeifer** | Genomic diversity and personalised medicine
4. **Jakob Neubauer** | Structured radiology and radiology MM-projects UKF
5. **Henning Schäfer** | Radiomics in MM
6. **Tanja Hartmann** | Targeting alpha 4 integrins to restore bone remodelling in myeloma bone disease

Clinical projects

7. **Nathalie Gutjahr** | Younger vs. older MM patients: what difference does this make?
8. **Andriani Vasakou, Nadja Almanasreh** | Physical assessment of rehabilitation MM pts and comparison to cand. med. J. Räder/ M.-D. Möller results
9. **Benedikt Frank** | Follow-up interdisciplinary MM tumorboard analysis: what insights are new?
10. **Georg Herget, Laura Wystrach** | Orthopedic interdisciplinarity: how does this serve the patient?
11. **Karin Potthoff** | Myriam and Caro and future IOMEDICO clinical trials in MM
12. **Magdalena Braun, Amelie Rösner, Heike Reinhardt** | Blaues + Rotes Buch, ChemoCompile and better informed consent: projects UKF

PROGRAM 13TH MM WORKSHOP 6-9 PM

Großer Hörsaal Medizinische Klinik + Online

Pause: snacks and drinks I	
6:00 – 6:05 pm	Welcome and Introduction Justus Duyster Monika Engelhardt
Session I: Precision Medicine Chairs: Johannes Jung Ralph Wäsch	
6:05 – 6:15 pm	Overview: new insights in MM Monika Engelhardt, UKF
6:15 – 6:25 pm	NGS guided targeted and immune therapies in MM Johannes Waldschmidt, UKF
6:25 – 6:45 pm	Evolution to end stage MM Leo Rasche, UK Würzburg
6:45 – 7:05 pm	How to overcome MM resistance? Jan Krönke, Charite Berlin
Pause: snacks and drinks II	
Session II: Novel approaches, includ. IO + trials Chairs: Christine Greil Monika Engelhardt	
7:30 – 7:40 pm	Overview: immunotherapies for MM Ralph Wäsch, UKF
7:40 – 8:10 pm	New insights and studies in the US Vincent Rajkumar, Mayo Clinic Rochester, USA
8:10 – 8:40 pm	What to adopt for the daily routine? Comments + learning remarks Monika Engelhardt, UKF Thomas Fietz, Singen Paul Graf Paul La Rosee, Villingen Jochen Rentschler, Offenburg Dominik Schnerch, Villingen Richard Fischer, Lörrach + all virtual participants
Get together / final discussion break-out session	

SPEAKERS AND CHAIRS in alphabetic order

Prof. Dr. Justus Duyster

Klinik für Innere Medizin I, UKF

Prof. Dr. Monika Engelhardt

Klinik für Innere Medizin I, UKF

Dr. Thomas Fietz

Onkologie Bodensee, Singen

cand. med. Benedikt Frank

Klinik für Innere Medizin I, UKF

Dr. Christine Greil
