

# INVITATION

Dear colleagues and friends,

It is our great pleasure to announce the **5<sup>th</sup> Workshop on Diagnostics of Immunodeficiencies**.

Building on the very successful realisation of the last workshops, we would like to invite again international clinicians and laboratory physicians to participate in our expert symposium for the exchange of information about new diagnostic methods.

Apart from the physicians of the CCI, we could again gain Dr. Mirjam van der Burg (Leiden, NL), Dr. Kimberly Gilmour (London, GB) und Dr. Taco Kuijpers (Amsterdam, NL) as international speakers.

We are looking very much forward to meeting you in the friendly atmosphere of Schloss Reinach in the beautiful and idyllic Freiburg district Munzingen to discuss with you state of the art diagnostic procedures of T cell disorders, antibody deficiencies and disorders of the innate immune system in an interactive setting.

Looking forward to an intense workshop.

Best regards

Klaus Warnatz
